

# Workbook in Excel

A workbook is another word for your Excel file. When you start Excel, click Blank workbook to create an Excel workbook from scratch.

## ◆ Open an Existing Workbook

To open a workbook you've created in the past, execute the following steps.

1. On the File tab, click Open.
2. Recent shows you a list of your recently used workbooks. You can quickly open a workbook from here.

3. Click Browse to open a workbook that is not on the list.

## Unlocked amazing opportunities for you

Click to unlock

### ◆ Close a Workbook

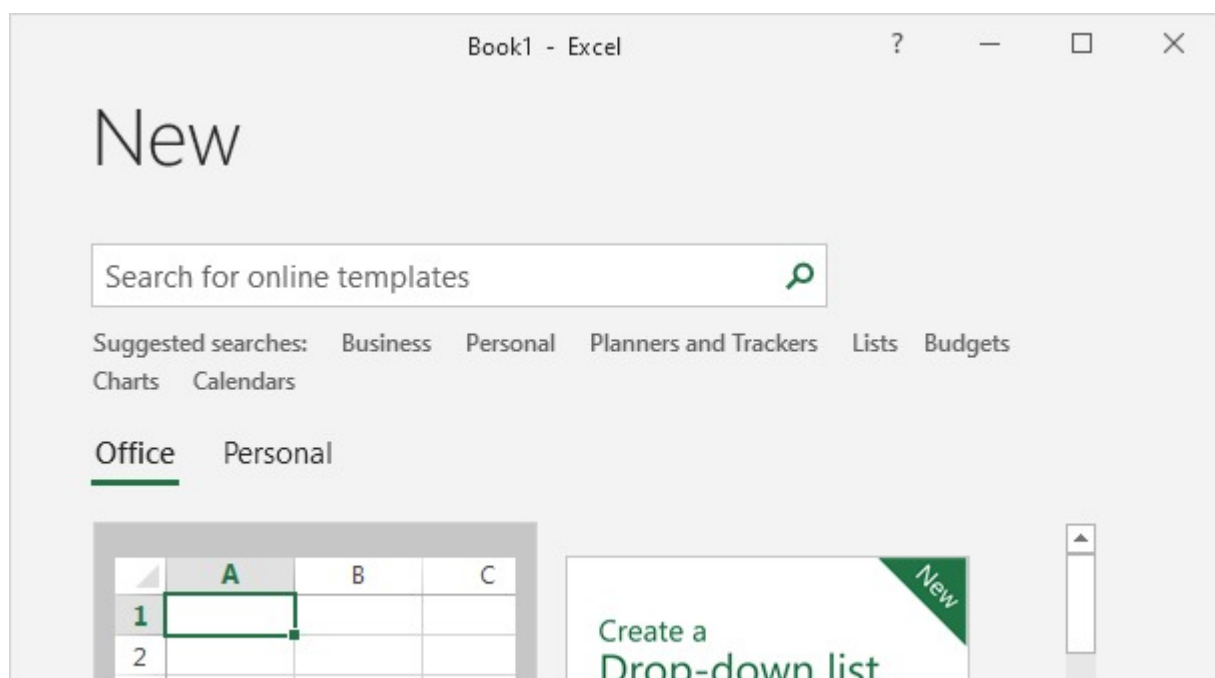

To close a workbook (and Excel), click the upper right X. If you have multiple workbooks open, clicking the upper right X closes the active workbook.

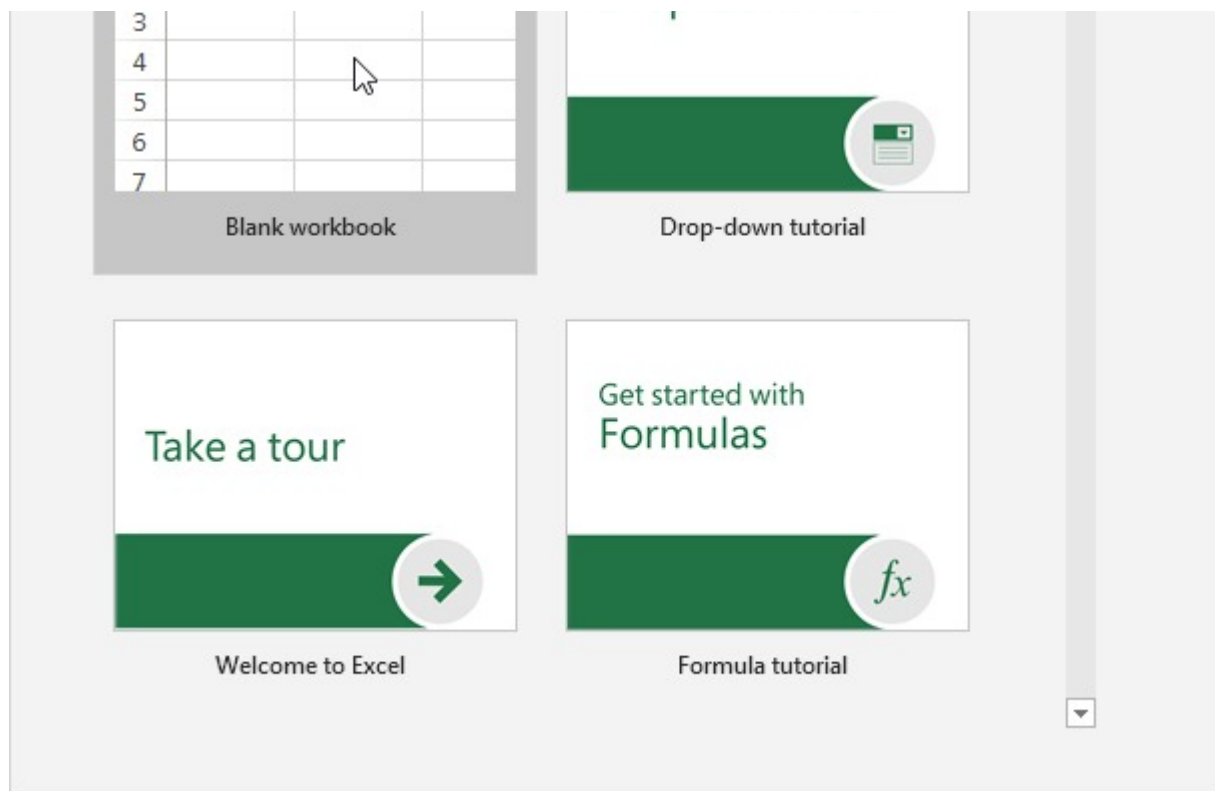

### ◆ Create a New Workbook

Sometimes you want to start all over again. To create a new workbook, execute the following steps.

1. On the File tab, click New.
2. Click Blank workbook.

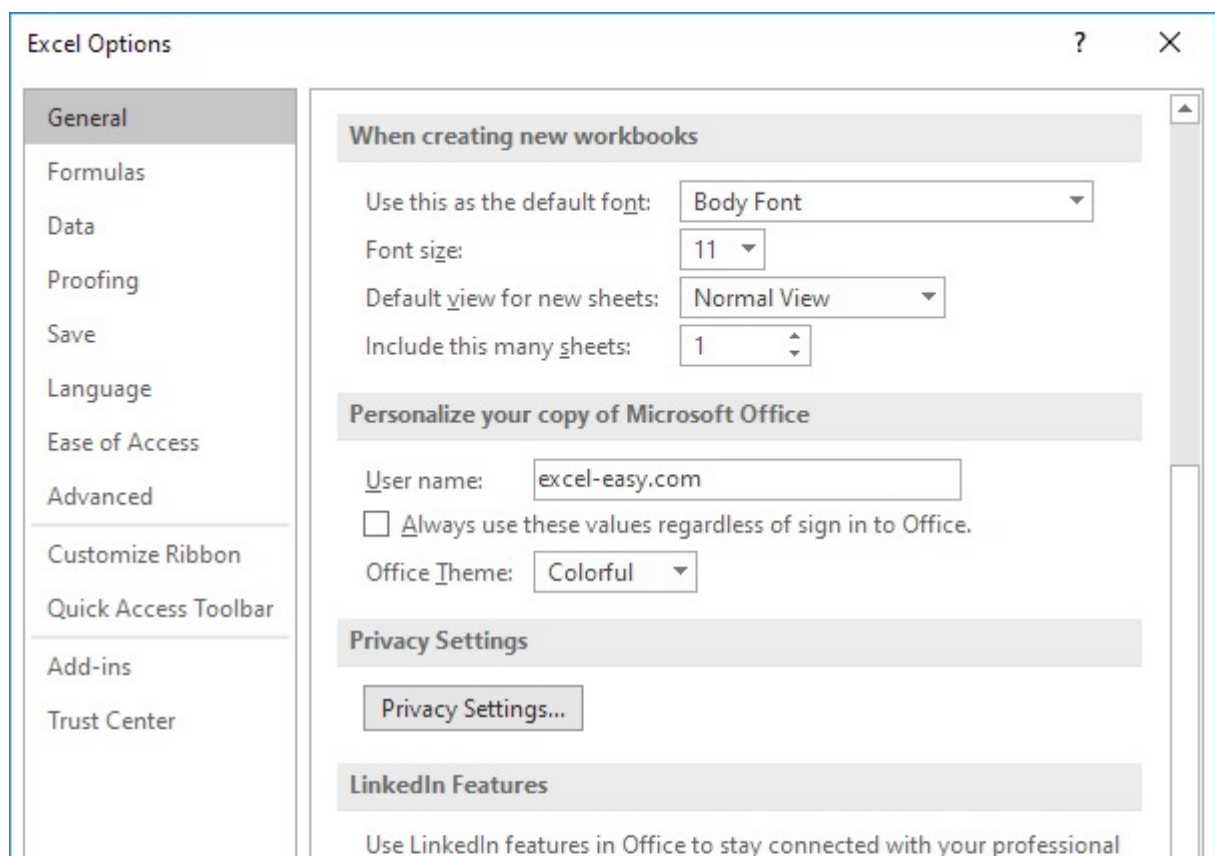

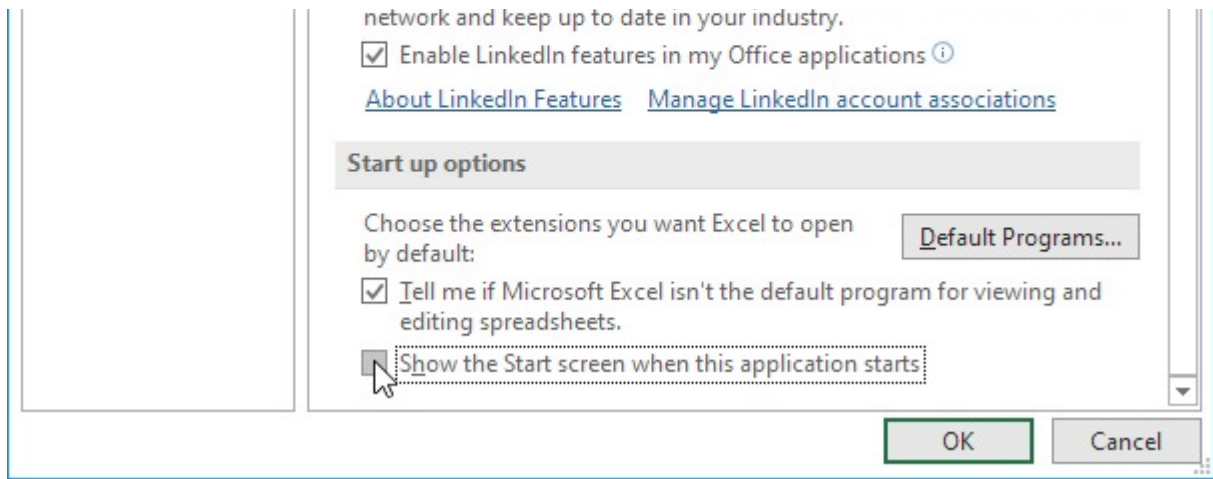

## ◆ Turn off the Start screen

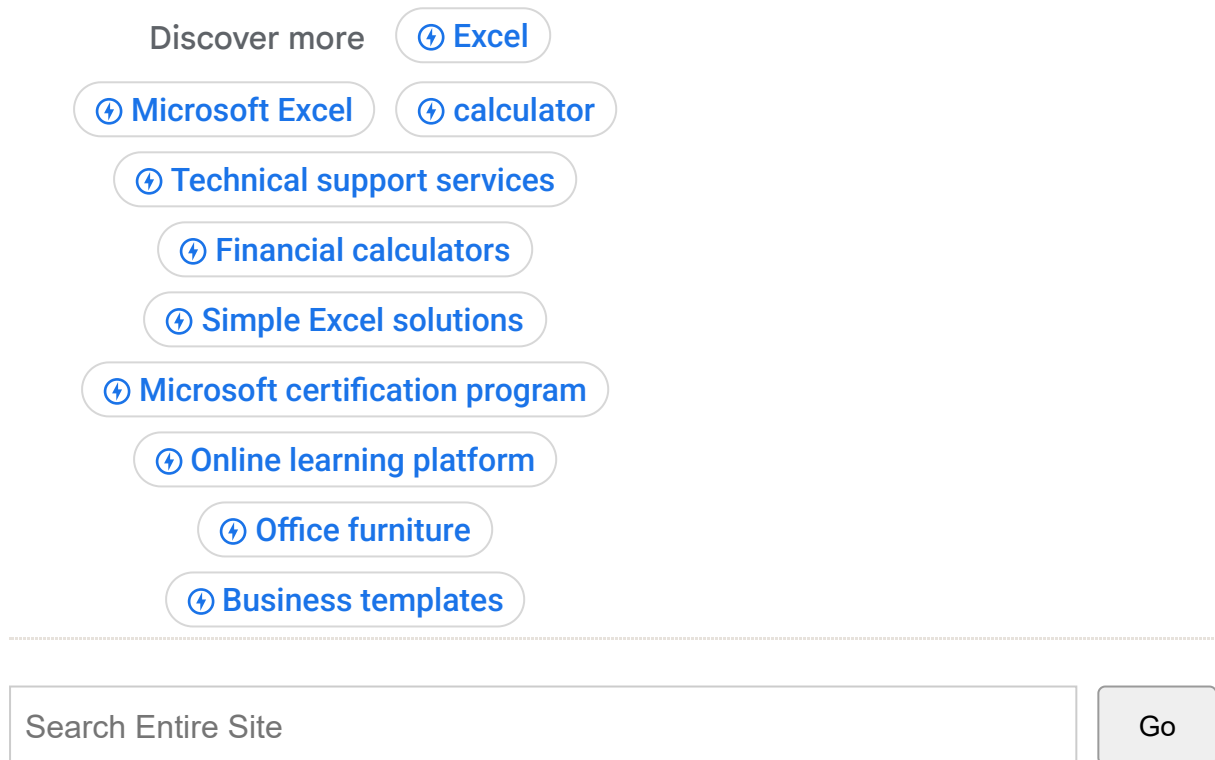

When you start Excel, it shows a start screen that lists recently used Excel files and templates. To skip the start screen and always start with a blank workbook, execute the following steps.

1. On the File tab, click Options.
2. Under Start up options, uncheck 'Show the Start screen when this application starts'.

3. Click OK.

## Chapter

### ■ Workbook

## Learn more, it's easy

### ■ Themes

### ■ View Multiple Workbooks

### ■ AutoRecover

### ■ Merge Excel Files

### ■ Save in 97-2003 Format
