

Developer Tab in Excel

Turn on the Developer tab in Excel if you want to [create a macro](#), export and import [XML files](#) or insert [controls](#).

To add the Developer tab to the ribbon, execute the following steps.

1. Right click anywhere on the ribbon, and then click Customize the Ribbon.

[Data visualization service](#)

[Project management tools](#)

[Data visualization tools](#)

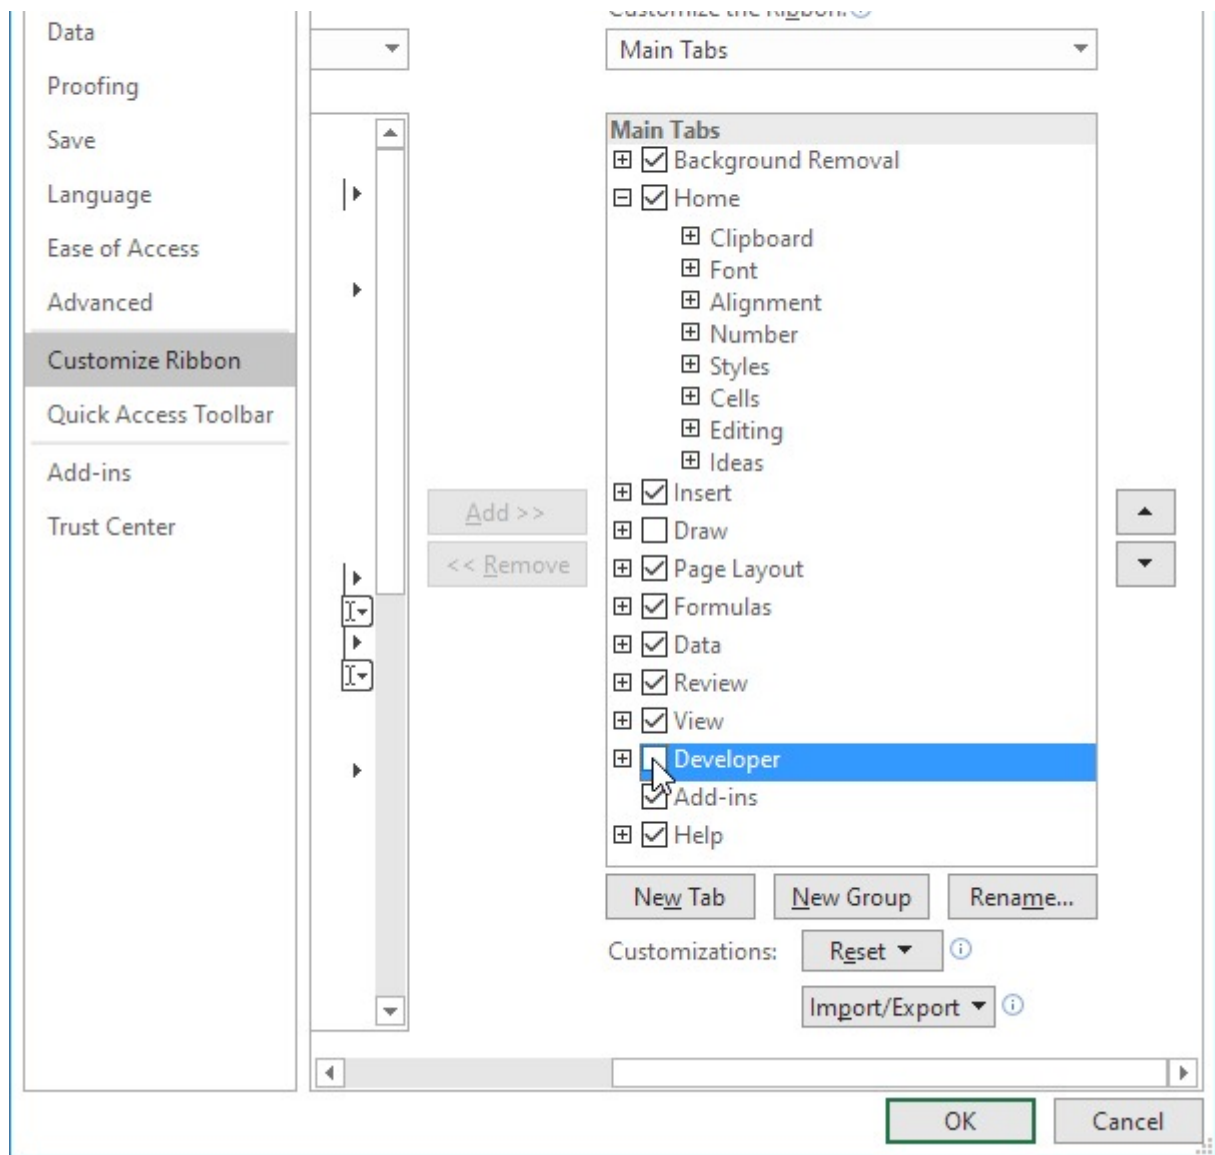

[Programming books](#)

[Formula cheat sheet](#)

2. Under Customize the Ribbon, on the right side of the dialog box, select Main tabs (if necessary).

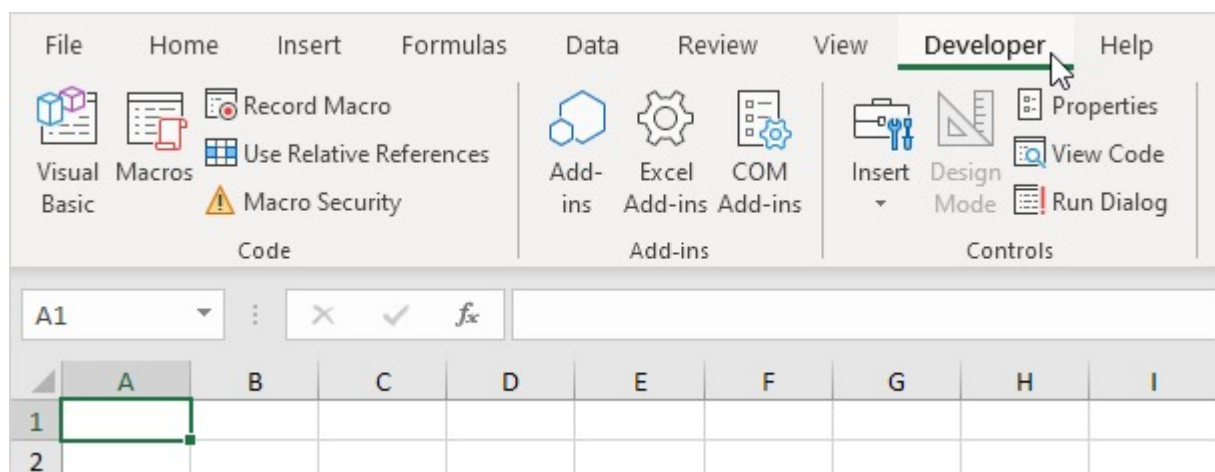

3. Check the Developer check box.

4. Click OK.

5. You can find the Developer tab next to the View tab.
